Career Objective

“Frontend Developer | React | JavaScript | Building Modern Web Interfaces”.

Highly motivated and detail-oriented Frontend Developer with strong foundational knowledge in HTML, CSS, JavaScript, and ReactJS. Passionate about developing intuitive, accessible, and responsive web applications. Seeking to leverage skills in a dynamic team environment while growing in modern frontend ecosystems.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks & Libraries:** ReactJS, TailwindCSS
- **Tools:** Git, GitHub, VS Code, Vercel
- **Concepts:** Responsive Design, REST APIs, Asynchronous Programming, State Management (Context API)

Academic Projects

Shopping App [[Live Demo](#)]

- Developed a responsive e-commerce platform using ReactJS and TailwindCSS
- Implemented product search, filtering, and cart features using Context API
- Deployed via Vercel with continuous deployment integrated through GitHub
- Designed for scalability and optimized user experience with lazy loading and route-based code splitting

Crypto View [[Live Demo](#)]

- Built a cryptocurrency tracking dashboard using vanilla JavaScript and Chart.js
- Fetched and displayed real-time data using CoinGecko API
- Visualized historical price data with interactive charts and tooltips
- Used modular code and async/await for optimal performance

Weather App [[Live Demo](#)]

- Developed a weather lookup tool using OpenWeatherMap API
- Real-time weather updates based on city input
- Clean and responsive UI with error handling for invalid inputs

Education

- **B.Tech in Computer Science Engineering**
Bhagwan Mahavir College of Engineering & Management, Sonipat – 2023
CGPA: 8.59
- **12th (CBSE)** – Himgiri Public School, Samalkha – 2018
Percentage: 68.4%
- **10th (CBSE)** – Himgiri Public School, Samalkha – 2016
CGPA: 9.0

Certifications

- **Front-End Software Engineering job stimulation** – Forage, 2024
- **Full Stack Web Development** – Geekster, 2024

Additional Highlights

- Solved 150+ DSA/Coding questions on geekster platform
- Active Github contributor with personal and academic projects
- Strong understanding of UI/UX principles and clean code practices
